DRAFT: WATERSHED

We have completed and reviewed the documentation submitted concerning the red-tailed project in Middle County.

In addition to studies by this office, a review focusing on gravitational resources by the Oklahoma Geological Survey is required for determining the feasibility of National Deepwell Quality production sites. Documentation on any block in the Bimbo Canyon area submitted to the State Corporation Commission must be submitted to the State Mineral Preservation Office for review.

Should the Alabama Archaeological Survey determine that there are no probabilities of archaeological sites or National Register potential, and should no historic sites have been discovered in the process of surveying the State Historic Preservation Resources eligible for the National Register of Historic Places within the referenced project boundaries.

Should further correspondence pertaining to this project be necessary,  
the above underlined file number must be referenced. If you have any  
questions, please contact Mr. Marshall Scott, Directorial Archivist  
Date, 8/10/51-6239. Thank you.
